

To whom it may concern,

I feel the FCC needs to stay out of the business of the State of Indiana and what many people in this state choose in avoiding telemarketing phone calls. I have received annoying phone calls for years from these people. Before signing up for the present system to avoid these calls, I was becoming rude with these people because of the interruptions. I DO NOT BUY from phone presentations. What do you want....people being rude to telemarketing phone calls and then complaints from companies and JOHN Q. Public OR just complaints from the telemarketing industry. You are in a no-win situation. I repeat myself in that I feel the FCC should stay out of the business of the people of the State of Indiana as we have made our choices as to what we want. You have more important matters to handle than a minor situation like this.

Thank you for your time and consideration in this matter.

Steve A. Snyder
